SKILLS

Languages:	Python, Java, SQL
AI / ML:	Scikit-learn, LangGraph, LangChain, LLM Integration , BERT / Transformers, FAISS, SHAP, Pandas, Matplotlib
Web:	Django, Django REST Framework, HTML, Tailwind CSS
Databases & Tools:	MySQL, Git, GitHub, Power BI, Excel, Hadoop, Informatica Dev, PythonAnywhere (deployment)
Soft Skills:	Problem-Solving, Leadership, Adaptability, Prompt Engineering

PROJECTS

AI Investment Research Agent GitHub Live	Jun 2026 – Jul 2026
- Engineered a 5-node LangGraph AI agent to analyze public companies through company profiling, financial analysis, news sentiment, and risk assessment, generating an AI-based INVEST/PASS recommendation. - Built a 4-tier data fallback pipeline with caching to ensure reliable analysis despite API rate limits and failures. - Implemented Gemini multi-model failover with a rule-based scoring engine for uninterrupted report generation. - Developed and deployed a Django dashboard with real-time progress and visualization on PythonAnywhere. Tech: Python, Django, LangGraph, LangChain, Google Gemini API, REST APIs, HTML, CSS	
AI Resume Analyzer & Job Matching System GitHub Live	Mar 2026 – Apr 2026
- Built a semantic matching engine using transformer models (BERT) with FAISS vector search to compare resumes with job descriptions beyond keyword matching. - Implemented explainable AI (SHAP) to provide detailed match insights and skill-gap recommendations. - Designed an intelligent recommendation system for personalized resume improvement. Tech: Python, Django, BERT, FAISS, SHAP, PostgreSQL	
AI-Powered Online Exam Platform GitHub Live	Nov 2025 – Mar 2026
- Designed a full-stack online examination system with role-based access control and secure authentication. - Implemented timer-based exams, automated evaluation, and performance analytics dashboard. - Designed AI-based proctoring features including tab-switch detection, session monitoring, and anomaly detection. Tech: Django, Python, PostgreSQL, HTML, Tailwind, scikit-learn, OpenCV	
Restaurant Management Web Application GitHub Live	May 2025 – Jun 2025
- Developed a full-stack restaurant management system with live order tracking, billing, and role-based access control (RBAC). - Implemented a normalized MySQL database with Django ORM, ensuring efficient data management. - Built secure authentication, input validation, and CSRF protection with a responsive Tailwind CSS interface. Tech: Django, MySQL, Tailwind CSS, HTML, Python	

EXPERIENCE

Full-Stack Developer (Contract) — Remote · Clients in Saudi Arabia	Oct 2025 – Present
- Sole developer on a long-term ERP engagement for a Saudi enterprise client — designing and delivering scalable ERP modules with Django, DRF, and PostgreSQL, including payment integration, on a continuous release cycle.. - Delivered a full-stack web application with secure user management for Le Prestige Mall — recognized with a performance stipend for reliable, on-time delivery. - Built and deployed a corporate website for AFAQ ALSIYANAH ALDAWLIYAH EST with full client satisfaction. - Owned all three engagements end-to-end, solo — requirements, development, deployment.	

TRAINING

Fundamentals of Data Structures — Lovely Professional University	Jun 2025 – Jul 2025
- Completed intensive training on Fundamentals of Data Structures at Lovely Professional University. - Strengthened core concepts including arrays, linked lists, stacks, queues, and trees.	

CERTIFICATES

Oracle Cloud Infrastructure Oracle	Mar 2026
Oracle Data Platform Oracle	Dec 2025
Cloud Computing NPTEL	Nov 2025

EDUCATION

Lovely Professional University Bachelor of Technology - Computer Science and Engineering; CGPA: 7.99	Punjab, India Aug 23 - Present
U.S.S College Intermediate; Percentage: 63	Siwan, Bihar Jun 22 – Mar 23
Emmanuel Mission High School Matriculation; Percentage: 73	Siwan, Bihar Apr 20 - Mar 21
